- What parents need to do at home to **keep kids out of trouble online**

Bio

Lisa Honold is a cyber safety educator devoted to keeping kids safer at home and at school.

She works with parents and schools to improve online safety systems so kids stay out of trouble online.

As founder and director of the Center for Online Safety, Lisa is a national public speaker on digital wellness, cyber safety and peaceful parenting and has been featured in major media outlets.

Thousands of parents have used the concepts in her cyber safety courses to enjoy a more peaceful family life.

Her podcast, Unplug and Plug In, is described as "the go-to-guide for parents on using tech intentionally".

Based in the Seattle area, Lisa is uniquely qualified to facilitate cyber safety events and workshops both virtually and in person. Lisa is also mom to three tech-loving teens.
